A REMARKABLE NEW SUPPLEMENT THAT IS SAFE AND NON-TOXIC

Poly-MVA is a uniquely formulated combination of minerals, vitamins and amino acids designed to support cellular energy production and promote overall health. Poly-MVA® also replaces certain nutrients due to depletion.

A patented dietary supplement with over 15 years of clinical laboratory research and testing, Poly-MVA® is a revolutionary product and the first in a remarkable category of supplements called palladium lipoic complexes (LAPD)™

POLY-MVA® HAS BEEN SHOWN TO:

- Provide superior antioxidant and free radical protection
- Fast acting, immediate absorption for quick results
- Support energy production at the cellular level
- Enhance quality of life
- Provide nutritional support
- Promote overall health by replenishing nutrients that may be depleted

Developed by leading biochemist and pioneering researcher, Dr. Merrill Garnett, Poly-MVA is the first in a category of supplements called Lipoic Acid Mineral Complexes (LAMC). A proprietary blend of palladium, alpha lipoic acid, vitamins B1, B2 and B12, specific trace minerals and amino acids. Poly-MVA represents an extraordinary breakthrough in supplement formulation.

THE NEXT ADVANCE IN NUTRITION

Poly-MVA® is formulated by Dr. Merrill Garnett, who over the past 40 years has conducted research on the actions of DNA within cells. His studies focus on the intersection between biochemistry and physics and what Dr. Garnett calls "electrogenetics," the action of electrons, and their energy transfer mechanism.

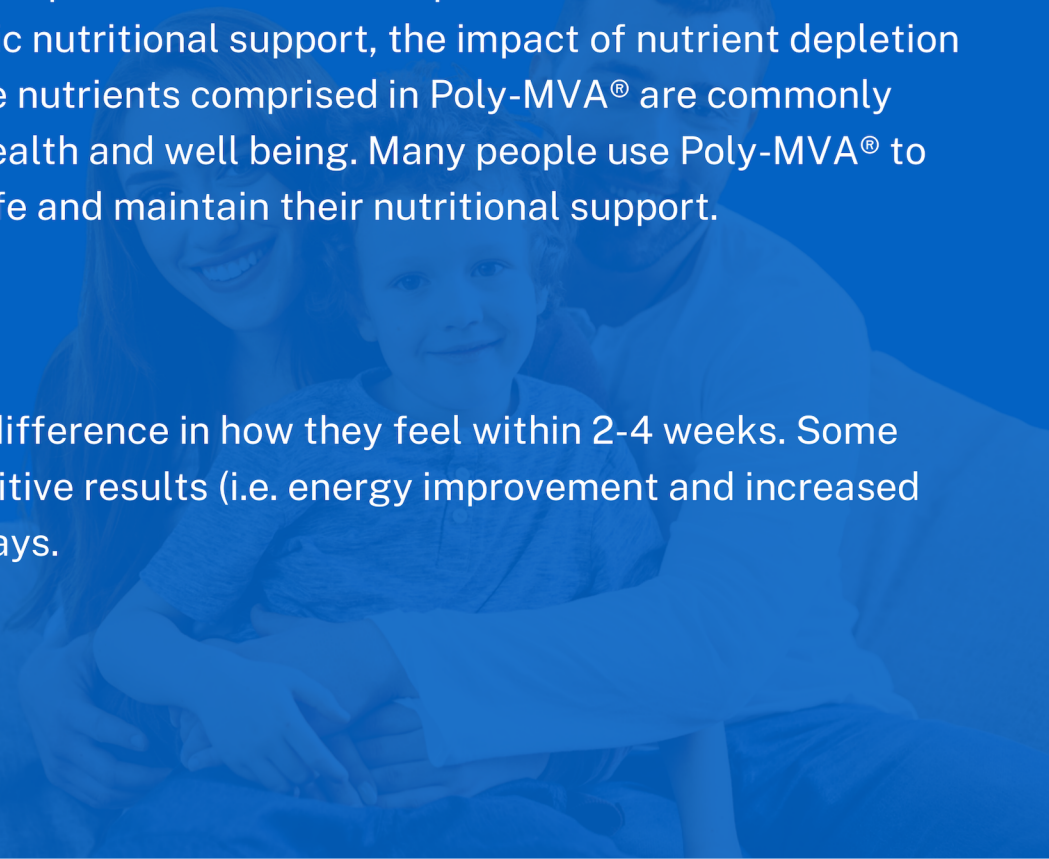

Poly-MVA® is created through an innovative, patented proprietary process whereby palladium (a unique mineral) is chemically bound to alpha lipoic acid, a powerful anti-oxidant involved in cellular protection.* When alpha lipoic acid, a unique antioxidant with many biological functions, is connected to an electrically charged metal substrate (palladium), and joined with various vitamins, the resulting complex becomes totally soluble in both water and fat dramatically increasing the body's absorption of alpha lipoic acid at the cellular level and throughout the entire body. With vitamins B1, B2 and B12, specific trace minerals and amino acids, this unique complex and formulation creates a synergy and support not found in any other dietary supplement.

NUTRITIONAL SUPPORT FOR OPTIMUM HEALTH

Many people may have significant nutritional depletion crucial to the healthy performance of the body. These nutrient depletions may further be compounded by lack of adequate nutrition due to poor diet and stressful lifestyles. Without specific nutritional support, the impact of nutrient depletion can worsen over time. The nutrients comprised in Poly-MVA® are commonly used to support overall health and well being. Many people use Poly-MVA® to improve their quality of life and maintain their nutritional support.

FAST-ACTING

Individuals may notice a difference in how they feel within 2-4 weeks. Some individuals have seen positive results (i.e. energy improvement and increased appetite) in a matter of days.

“If you haven’t heard about Poly-MVA’s success, you’re probably not a Dr. Sinatra Health Report Subscriber”

-MARIA E.

“We used Poly-MVA and although it took three months to get full effect, we are so glad we stuck with it. What a life-altering experience!”

-MARILYN U.

“We are so blessed to have come across Poly-MVA for our daughter. What an exceptional product and a great organization.”

-JENNI AND DALE M.

“The positive impact I have seen in our clinic is astounding and our clients are so pleased.”

-DR. JAMES F.

"An excellent use of poly-MVA is supporting quality of life."

-Rudy Falk, MD

"A new unique supplement we all should be taking."

-Robert Milne, MD

"Poly-MVA is a great tonic for everyone!"

-George Zabrecky, MD
